2. In addition, the Siemens plant in Gera, Thuringia, is losing all of its equipment for the production of condensers. Engineers and technicians employed by the plant will be required to go to Leningrad to supervise the re-assembling of the installations at salaries ranging from four thousand to five thousand rubles per month.
Comment: This confirms an earlier report, in which the names of the specialists slated for deportation to Russia were listed. According to this report, however, salaries will amount to as much as six thousand rubles per month, and each specialist will receive one payment of eight thousand marks to purchase clothing at the Russian stores in Gera.)
